Does the Hosiery You Buy Wear Satisfactorily? We have been studying the Hosiery business for years.

**To-day** we are very proud of our HOSIERY Department. Our No. 506 Boy's or Misses' Fast Black, Ribbed Top, Seamless Foot, running in sizes from 6 to 9½, at 10 cents is the first HOSE at this price we have ever shown with a DOUBLE KNEE. Suppose you buy one pair and compare it with the HOSE you have been paying 15 cents for. We say it's as good and will leave it with you.

We are anxious to place our HOSIERY in the hands of every reader of THE BEA. Come, and see us, and if we fail to show a superiority we shall not ask you to buy. Come and be convinced we are the HOSIERY PEOPLE.

## DAYTON COOK HURT.

Democratic Party Almost Murdered in Person of the County Chairman.

Accident Occurred While Trying to Ride in a Democratic Wagon.

Dayton Cook and John Victory had an exciting time yesterday, and as a result the Democratic party of Hopkins county may for a time be bereft of the corporal presence of its wealthy chairman. Seriously, Dayton tore his pants badly and was severely bruised in body while trying to ride in a Democratic wagon—not the "band wagon" this time, but a covered spring wagon, the property of John M. Victory, "guaranteed to carry 1000 pounds."

John had cut the thing around so as to give Dayton a chance to climb in. As the latter put his weight on the step and attempted to climb to the seat, the wagon bucked and took a header—actually almost stood on end—throwing John from the seat and precipitating the wealthy Cook between the wagon and the fence in a very narrow place. Dayton clung to the fence to keep from being dragged and was severely squeezed and bruised about the body and legs. His trousers were torn in several places and he was only able to limp painfully to the station in time to catch the train.

John had a finger bruised and was a little unstrung in his nerves. The accident occurred at the entrance to the Catholic cemetery, where they had been putting up a monument.

Dayton had some matches in his pocket, which were fired in the rub, and when he began to smell the brimstone he thought his time had come. He has been admonished to repent of his political obliquity and to beware of the tricks of the Democratic wagon, including the "band wagon."

## PLANS FOR WELCOME.

Steps Will be Taken to Receive Our Returning Soldier Boys.

A meeting was held in the city hall at Madisonville, Tuesday night for the purpose of making a start towards preparing an appropriate welcome for the boys of Company A, when they shall return from their military service and have more to do with plumes and pruning hooks and less with swords. Only a few were present but those who were in earnest. Chairman C. C. Givens was asked to get together a representative committee who should take active charge and perfect all necessary plans and arrangements. It is probable that another meeting may be called.

Earlington was represented and the interest of the Earlington people was expressed together with the assurance that Earlington would come in and do her part if the opportunity was given.

## Died.

Died, at the home of his parents near Grapevine on the evening of the 5th, Peter D. Hibbs, of heart dropsy. He was nearly sixteen years of age and had been afflicted all his life and his death, though sudden, was not unexpected. He was a son of Mr. and Mrs. Joseph Hibbs and the youngest brother of Mrs. W. A. Toombs. The interment took place Thursday at Flat Creek cemetery. The B. & E. extends sympathy to the bereaved family and friends.

## DEWEY WILL SOON COME HOME.

The Admiral Will Probably Return With Cheesman Scherman When the Commission Comes Home.

Chicago, April 8.—A special to the Tribune from Washington says: With a few months Admiral Dewey will be back on the water, if all goes well, and when he is given the welcome he earned nearly a year ago in Manila bay. He will not be recalled, as such action might be construed as a mark of dissatisfaction with his record, which might encourage the Filipinos.

An intimate has been conveyed to him, quite unofficially, of course, that the work of the navy in the Philippines is over and that the admiral is to be recalled and that the minute he asks for a discharge the request will be granted.

It is understood Admiral Dewey is ready to cut home so far as naval duties are concerned, but prefers to finish the war of the Philippine commission and see home with Chairman Scherman and ex-Minister Denby.

## STEAMER HIN K. SPEED SUNK.

Carried by Wind and Current on to the Narrow Escape off on Board.

Louisville, Ky., April 10.—The big steamer, named John K. Speed, owned by the Cincinnati & New Orleans Packet Co., became unmanageable while leaving dock yesterday afternoon, owing to a treacherous current and the high wind prevailing, and drifted down river until she struck the outer point of the Kentucky side of the dam.

Alas! Capsized.

The force one impact was so great that the big vessel careened to such an extent that she on shore was sure she would tip over, but she righted up again and most in a twinkling settled down the rock bottom, the water rushing to her hold through a large jagged rift of her boilers on the starboard side.

Not a Southerner Injured.

The most unfortunate part of the calamity was not a soul of the 100 aboard was injured in the least, some not even getting their feet wet.

## NO USE FOR UNKUN PEOPLE.

'Rajah' Kills Keeper for Liberties Taken While in An Intoxicated Condition.

Kansas City, Mo., April 10.—"Rajah," a man named Rajah, who was owned by Lemen Brothers' circus, which has been wintering in Argos, Kan., near here, yesterday killed his keeper, Frank Fisher. Fisher returned to the tent intoxicated and tried to make the different animal perform. Coming to the elephant, the keeper, the beast, Rajah, tried to open its mouth. Becoming enraged, Rajah crushed Fisher's head, and throwing him to the ground made repeated efforts to pierce his throat with his tusks. Rajah finally knelt upon Fisher, crushing his life between his tusks. He was 28 years old, and his home was in Montreal, Can. He is said to be Rajah's ninth victim.

## BRIDGE DESTROYED BY FLOOD.

One Hundred Thousand Dollars Damage Done One Hundred Lives Lost.

Kansas City, Mo., April 10.—A special to the Times-Gleaner, Mont., says: A flood that has been sweeping down the Missouri river, and has caused \$100,000 damage to the loss, is reported, of 100,000. No particulars.

## AN ACCOMPLISHED FACT.

The War With Spain is Now a Thing of the Past, and Sweet Peace Again Reigns.

## EXCHANGE OF TREATY RATIFICATIONS.

The Ceremony Took Place at the White House, M. Cambon, the French Ambassador, Acting for Spain and President McKinley for the United States.

Washington, April 11.—The complete restoration of peace between the United States and Spain has been effected first through the exchange of ratifications of the treaty of peace, to be followed by the issuance of a proclamation by the president announcing to the world that peace is restored. The

PRESIDENT WILLIAM MCKINLEY.

ceremony of exchanging ratifications occurred at the executive mansion at three o'clock when the president handed to M. Cambon, the French ambassador, the American copy of the treaty and the ambassador in turn gave to the president the Spanish copy of the treaty properly attested by the queen regent and premier of Spain.

This ceremony was devoid of all display but made an impressive closing scene in the negotiations which again bring the two nations together. M. Cambon was accompanied by the first secretary of the French embassy, M. Thiebaut. They were in civilian dress, the first purpose of having the entire staff of the embassy attend in full uniform.

## Murdered His Wife.

St. Louis, April 12.—Frank B. Callaway, aged 25, shot and killed his wife, aged 20, in the store of the Siegel-Hill man Dry Goods Co., Monday evening. Mrs. Callaway and her husband were living apart, on account of the latter's brutality, the wife having sued for divorce. She was supporting herself and babe on her earnings as saleswoman.

## Younger's Hope Blasted.

St. Paul, Minn., April 12.—The Wilson parole bill, better known as the Younger brothers' bill, was killed by a vote of 63, or more than a majority of the whole house, voted against it. A motion to reconsider was voted down, thus, from a parliamentary point of view, clinching the defeat.

## A Kentucky Tragedy.

Williamsburg, Ky., April 12.—James Shotwell and his son John were drunk and disorderly at Corbin, this county, when Marshal Bingham undertook their arrest. They resisted, and Police Judge Moditt was instantly killed in the shooting that followed. Wm. Holland, at whose home the shooting occurred, was mortally wounded. The Shotwells were arrested.

## For a Monument to Lincoln.

Springfield, Ill., April 12.—The house passed a bill providing for the erection here of a whole house monument at a cost of \$1,000,000. The bill appropriates \$500,000, and provides that \$400,000 be raised by popular subscription. Congress will be asked to appropriate the balance.

## DEATH OF STEPHEN J. FIELD.

Late Associate Justice of the Supreme Court of the United States.

Washington, April 10.—Justice Stephen J. Field, of the United States supreme court, retired, died at his home on Capitol hill, in this city, at 6:30 o'clock last evening of kidney complications. About his bedside were his wife and his sister, Mrs. J. Condit Smith. Mr. Justice David J. Brewer, his nephew, Mrs. Edgerton, of California, Mr. Lindon, his private secretary, Rev. Edward M. Mott, rector of the Church of the Advent, and the family servants. He had been unconscious since Saturday morning, and death came peacefully.

## Enjoyed Good Health.

Ever since Justice Field's retirement from the supreme court bench on December 1, 1897, he had enjoyed comparatively good health, and being relieved from the responsibilities which he had borne for so many years, he became more cheerful than formerly, and seemed to enjoy the society of his friends and acquaintances more than ever before. All during the winter when the weather was fair it was his custom to take daily drives about the city or through the grounds of the Soldiers' home, and always returned refreshed. About two weeks ago, however, he took a longer ride than usual in an open carriage and contracted a severe cold which quickly developed into kidney troubles, from which he had suffered, though but slightly, for some time.

## Sank Rapidly and Expired.

The disease readily yielded to treatment, and on Thursday last he sat up for a time, and seemed quite himself again, but on Saturday morning a change for the worse took place, and about noon he lost consciousness. From that time he sank rapidly, and expired at 6:30 o'clock.

## MORE RIOTING AT PANAMA, ILL.

Several Persons Killed and a Large Number Wounded—Martial Law Proclaimed—All Quiet.

Pana, Ill., April 11.—In a street battle here between white and black miners, and in which deputy sheriffs took part, five men and one woman were killed, and eight persons wounded, two or three of whom will probably die.

The known dead are:

Xavier L. Hoog, Frenchman, union miner.

Frank Coburn (white), son of ex-Sheriff Ira Coburn.

Three unknown negro men and one negro woman.

The wounded are:

## CAPTURE OF SANTA CRUZ.

One of the Most Brilliant Engagements of the War in the Philippines.

## GEN. LAWTON LED SOME OF THE CHARGES.

Excepting an Amazing Delay Caused by Shallow Water, All Plans Worked Perfectly and the Rest of the Philippines Was Completely a Most Important Capture.

Manila, April 11.—Santa Cruz was the Philippines' stronghold on Lake Laguna de Bay, and it fell into the hands of Gen. Lawton's expedition after some sharp, quick fighting, forming one of the most interesting and important battles of the war.

Plans of the American commanders worked perfectly with the exception that the progress of the expedition was delayed by the difficult navigation of the river.

## Composed of Picked Men.

About 1,500 picked men composed the expedition, which was under the personal command of Gen. Lawton, on account of the illness of Gen. Kilgob. These troops partly surrounded the city while the gunboats Laguna de Bay, Napidan and Osete, under the command of Capt. Grant of the Utah battery, shelled the city and outlying trenches.

## Gen. Lawton Led Charges.

Gen. Lawton and his staff accompanied the troops, sometimes leading charges in Indian fighting tactics, which eventually resulted in the complete rout of the rebels, with the smallest amount of damage to the city and slight loss to the Americans.

## The Battle Begun.

At sunrise Monday the assault commenced. The American outlines south of the city stretched two miles inland, and with its left sweeping the shore, it moved north, while the Fourth cavalrymen on the point advanced toward the city pouring volleys upon the trenches. Simultaneously the gunboats hovered along the shore, shelling the woods ahead of the troops and driving the Filipinos inland. The galling cross fire soon began to tell.

## Old-Time Indian Fighting.

The whole brigade was divided into squads of 12, and the fighting was carried on in the old-time frontier fashion, from behind trees, crawling through bushes or rushing across the open.

## Demolished Barriers by Hand.

Gen. Lawton, with the Fourteenth infantry battalions, approached a narrow iron bridge across a creek on the south border of the town. Here a company of Filipinos was entrenched across the creek, and behind a stone barricade at the entrance to the bridge. The Americans rushed forward in single file in the face of a galling fire, demolished the barricade with their hands and drove the enemy from the trenches, killing a dozen.

## The Filipinos in Retreat.

A considerable body of the Filipinos fled northward, crossing the open marshes, but the gatlings poured upon them a deadly hail until they disappeared in the woods, slaying dozens. Maj. Weisenberger deployed the sharpshooters along the shore, and they crept steadily forward, aiding the gatlings. Finally a large body was sent against the enemy in the woods, driving them toward the mountains.

## On the Marshes North of the Town.

On the marshes north of the town were found 40 dead Filipinos, some terribly torn by shells, and many others wounded, to whom the Americans offered their canteens as though they were comrades. A surgeon was to travel with the field, counted 30 killed, and Gen. Lawton will report at least 60. One Filipino, attempting to make his escape, slashed viciously at Maj. Weisenberger, who shot and killed him.

## Dropped Dead of Heart Trouble.

Perry Okla., April 11.—Judge J. J. Perry, receiver of the Perry land office, dropped dead of heart trouble here Sunday night while conversing with friends. Judge Perry was appointed from Pennsylvania. Interment will be at Rochester, Pa.

## Senator Teller Dies.

Denver, Col., April 10.—United States Senator Henry M. Teller has been quite ill of fever, resulting from a severe cold, contracted while in Chicago; but it is announced that the crisis has been passed and that he will be able to be out again in a few days.

## Gen. Montenegro Killed.

Manila, April 8.—It is reported that Gen. Montenegro, the most aggressive and, next to Aguinaldo, the most influential of the insurgent Filipino leaders, was killed during the recent fighting in front of Malolos.

## To Die With the Benchers.

If some friend will supply the missing data we shall be glad to give publication to the program.

**Judge Thompson.**  
In the death of the Hon. Reginald H. Thompson, Judge of the Louisville Police Court, where he has wielded the sword of justice fearlessly, but tempered with great mercy and guided by profound wisdom in the love of God and fellow man, the State has a great loss. Those whose privilege it has been to come into personal contact with Judge Thompson were ever impressed with the righteous manliness of the man and his deep desire to render service to humanity. We mourn his loss.

**How to Get a Governor.**  
If the three candidates for the Democratic nomination for governor of the State keep cutting into and exposing the tricks, shams and frauds of each other, it may become necessary to import some one from another State or enter some obscure fellow from the mountains who has no record at all.—Glenn's Graphic.

Just let the three D's continue their present public service, each showing how mean are the others, but don't get in a hurry about any importations. A little exporting would be more to the point. The Republicans may be wise enough to settle the difficulty by nominating a clean, able and popular man who will beat the Democratic nominee, who promises by that time to be a mere remnant—a residue.

**Farm Mortgages Satisfied.**  
That evidences of returning prosperity to agriculture continue is a fact worth noting. In speaking thereof the American Agriculturist remarks that the surplus of money, of which the public prints make so much, is not confined to the financial centers of the east, but is a matter of fact in the middle states and central west. In Nebraska the secretary of state is compiling a list of mortgages filed and released for the past year, and it is believed this will show an excess of mortgages satisfied over those filed for the previous year of \$50,000,000, and mostly satisfied through cash considerations, with relatively few pointing to foreclosure. It is worthy of note that most of these mortgages were paid off by the agricultural and stock-raising element. What is true of Nebraska is true in a greater or less degree of other states where liberal crops and fair prices have enabled farmers to make a showing on the right side of the ledger.

**A Model Road Law.**  
The road law now in force in New Jersey furnishes probably the best illustration of the effect of modern methods as applied to the construction and maintenance of public highways. Under this law the abutting property pays ten per cent. of the cost of construction, while the State pays one-third and the county the remainder. These proportions would, of course, vary in different States because of local

conditions, but the principle of distributing the expense is applicable to every State. It would be unjust to require the State to pay the entire expense. The county, which furnishes nearly all the traffic passing over the road, should contribute a generous share; and the abutting property, being enhanced in value by the existence of the road, should bear a fair proportion. In fact, the increased selling value of farm lands in New Jersey has so far exceeded the cost of the roads as to prove a source of unexpected profit to the owners, while the easy and inexpensive means of reaching the markets at all seasons adds materially to the income derived from farm products. So universally popular is the law that more petitions for new roads are filed than can be granted promptly, and almost the entire time of the Highway Commissioner is occupied in hearing the pleas of farmers who urge immediate consideration of their claims. The New Jersey law, because of the length of time it has been in operation, offers the best opportunity to those who desire to acquaint themselves with the merits of the State aid system, though the Higbie-Armstrong law in New York and the Hamilton road law in Pennsylvania, more recently enacted, are operating to the entire satisfaction of the citizens of those States.

**The Insurance Indictments.**  
Business men of Princeton, Hopkinsville and other Kentucky towns have prepared petitions to their Commonwealth's Attorney's praying them to dismiss the indictments that have recently been returned in many places against fire insurance companies under the "anti-trust law." In some cases threats of prosecution have been made against these petitioners for contempt of court, but it seems that in several instances the petitions have prevailed and the court officials have been persuaded that they do the public a service in dismissing these indictments, which, if enforced, would finally drive all reputable insurance business out of the State and thus very much embarrass the business interests of Kentucky, as has already been done in Arkansas from which State the insurance companies have withdrawn because of adverse legislation.

The Hopkinsville petition, which was presented to Commonwealth's Attorney Howell, Saturday, reads as follows:  
"We the undersigned citizens and premium payers in Christian County, Ky., respectfully ask that you dismiss the indictments returned against the Fire Insurance Companies in the Christian Circuit Court. Our reasons for so doing are that we believe it will be injurious to the public at large. The rates of insurance we have to pay are reasonable and we have no complaint to make along that line. As merchants and tobacco men, we depend largely upon our insurance for securing credit, and we would regret very much to see the companies leave the county. If any fines are imposed it will have to eventually come out of the people who have to pay the insurance, any way, as it will only result in the rates being raised. We understand that the Commonwealth's Attorney, upon the petition of the people, at Lexington, Russellville, Louisville, Paducah and Princeton, have refused to prosecute, or have had the indictments dismissed. Can you not do the same here?"

"For these reasons and many others, if consistent with your duty, we most earnestly ask that you have these indictments dismissed."

**POLITICAL POINTS.**  
James R. Rash has decided not to enter the race for the Democratic nomination for Representative from Hopkins. This leaves W. D. Orr, Rufus Teague and Theo. Clark in the race.

The County Committee of the Populist party is called to meet in the Court House at Madisonville, Saturday next April 15, at 10 o'clock a.m.

The Muhlenberg Republicans will meet in mass convention, April 17th, for the purpose of deciding the time and manner of selecting a candidate for the Legislature.

**General Crop Conditions.**  
In describing crop conditions at the close of March, the Agricultural Department bulletin says: "The season is backward, the month having been very unfavorable for farming operations. The general condition of wheat is less favorable than at the close of that month the late-sown is less promising than that seeded early. On the Pacific coast the outlook is most promising in Oregon, and the crop has been greatly benefited by recent rains in California, but in Washington it has been injured by severe weather and lack of snow protection."

**Some Wholesome Business and Economical Suggestions.**

A friend calls our attention to an article, written by a gentleman in another State, which fits the conditions of Earlinton so well that we publish it in full. Many individuals, our Earlinton merchants and the community at large would receive very material benefits by following the suggestions therein made so plain. The points are strong and well taken. The amount of stuff in the way of "silver ware," picture frames, etc., that is unloaded on the people of Earlinton during a year at high prices which must yield a handsome agent's commission, is enormous. Practically everything that is thus bought could easily and should be supplied by our home merchants and at much less cost. Our home merchants need to realize these facts and to go after this trade with intelligent advertising.

Here is the article in question and it is published in the hope that it may be of benefit to the people of Earlinton and of other towns where THE BEE is read:  
"The daily papers recently contained a notice warning people to be on the lookout for swindlers who were going from house to house selling what purported to be fine soap at \$6 a box. Investigation showed that only the top layer was good soap, the remainder being of a very inferior quality. It is that people who persist in buying of these peddlers and fakirs, is one of those instinctive things that are too deep for human understanding. The housewife thinks she has a chance to economize, and she buys enough soap, or needles, or picture frames, to furnish a small store, and finds out later that she could have purchased a better article for less money of her home merchant."

"She should stop and remember occasionally that her husband makes his living by the profit derived from the business he does with his neighbors, and it is no more than right that she should get as much of that money at home as she possibly can. If she will buy her groceries, her meat and her clothing of her home merchant, she will save time and get better goods for her money, and at the same time make a friend of the merchant from whom she buys."

"The home man will go to a great deal more trouble to see that she is satisfied, knowing that if he pleases her, he will have her for a regular customer. If she goes away from home to buy her soap, she goes away from strangers who don't care particularly whether or not she is given value received, as all they are looking for is the profit on the immediate sale. Then the money she spends away from home has gone out of circulation in her neighborhood, and the community is made poorer. Suppose, for instance, the lawyer's wife received \$5 to pay her bill at the corner grocery. The grocer goes to the dry goods store nearby, and pays for his wife's new dress. The dry goods merchant runs down to the coal dealer and settles his little bill; the coal man pays his doctor bill; the doctor makes a payment on his spring suit; the clothier turns up the afore-said lawyer, and gives him \$5 as a retainer; and the next Monday the lawyer's wife has the same five-dollar bill to pay her grocer again. Reciprocity is what we want. A large amount of money in a community does not necessarily imply prosperity. It is the circulation the money gets that makes us all happy and contented. Money was made to spend."

"The economical housewife isn't wholly to blame, however, because she doesn't spend her money with her home merchant. When she reads in the papers of the bargains offered at stores away from home, she can't resist the temptation to go there. See if all the advertisements says is true. The object of the advertiser is the same. When she gets into the store she invariably buys something. It may not be the article advertised, but she will see something else that strikes her fancy, and she spends her money at that store. An advertisement doesn't sell goods. It brings the prospective customer to the store to investigate; and if the article is found as represented, the sale will be made."

"If the home merchant will keep his neighbors informed about what he has to sell, and convince them he can sell as cheap as anyone else, he will get the trade. The man makes a serious mistake who sits down and says: 'Oh, everybody knows me. I've been here for forty-years, and they know I keep groceries and dry goods and sale goods.'"

quit for six months, and expect business to flow in as the result of your little start. It is very likely that your advertisement won't be noticed for a month or two; but after a time the people get acquainted with your name, and begin to look for you; and to see what you have to say."

"The American people are very forgetful. Unless you tell them over and over again of the virtues of your wares, they will seek new fields. You have to work to retain old customers, as well as to get new ones. As proof of how forgetful you are, name the men who accompanied Hobson on the Merimac excursion. You can't do it. These men received honorable mention at the time of the incident, while the others are like those who put their cards in the church programs once a year, and expect to reap the same reward as their wide-awake brother who keeps everlastingly at it."

**AX FORTNINGS.**

Our energetic farmers have gone to work with more vim than ever since the weather has cleared up.

The prayer-meeting convened the home of J. L. Pool last Saturday night and a profitable time was enjoyed by all in attendance. The meeting will be held with Wm. Butler next Saturday night.

J. H. Walker and Wm. Maddox passed through our vicinity last Monday on a business trip to Dawson Springs.

Brother Browder, a Methodist minister preached at the Spring church last Saturday and Sunday.

Rev. R. C. Ramey preached at Pleasant Grove last Saturday.

J. W. Walker, of the Era vicinity, was the guest of T. H. Walker last week.

**A Girl's Way to Make a Living.**

From Harper's Bazar.  
"What some New York girls won't try to do to make a living isn't worth trying," said a small boy, brother of one of the New York girls who is "trying" to make a living. She had told him she was going to paint quilts for summer hats. Painted quilts are the very latest touch, and the girl in question is painting quilts for so much a dozen. For golf hats and all sorts of sporting hats for women, and on men, she has brown, blue, black, or white quilts, and she paints them in polka dots of the same shade, in tennis-rackets or golf-sticks crossed, huntsmen's horns or foxes' tails, cricket-balls, etc.—any emblem which is ordered or which suggests itself to her as appropriate."

**LOCOMOTIVE BLASTS.**

A most commendable thing about railroad men is the fact that when one of their number gets sick or in distress he is in the way of a helping hand. When it comes to relieving one in trouble they are brothers indeed.

For years past the boys, while doing work at Guthrie have been the victims of thieves, their clothes being robbed of their best clothing, which was left hanging up in the wardrobe of the same, and so far no one thief has ever been brought to justice. Only last week conductor Lane and crew suffered in this way quite a heavy loss, losing clothing and shoes valued at forty dollars. The boys made an effort to locate the thieves, but failed.

It is now almost a daily occurrence for one or more double-headed to be run. This is quite a saving to the company, but a loss to conductors and brakemen. Yet the boys must remember that the larger the saving the more likely are they to receive steady employment, and therefore the boys are content to see the company operate the road as their best judgment would dictate.

Supervisor Sullivan and men have this week distributed quite a lot of new soap to the men of Earlinton and Hopkinsville, and it can be seen that improvements still go on.

Mr. Claude Smith, who for years has been cashier under Agent A. M. Hopkinsville, has been the lucky man to capture the agency at Slaughterville. Few men on the system are better qualified for the position than he is, and he will fill it with honor to himself and company.

Assistant Superintendent of bridges and buildings, Gus McVey, was here last week with an Evansville contractor making arrangements for the moving of several houses out of the way of new bridge tracks to be built here.

Special Agent Harland, of the L. & N., is on the lookout for those fellows who have been taking pleasure in throwing through car windows of passing trains. If

When the colored miners of Alabama went to Illinois to seek work in coal mines of that State after a strike had been inaugurated by the U. M. W., they were called "negro scabs," but as soon as they arrived at the conclusion to join that organization and surrender their independence they are taken into full membership and called "brother."

About nine thousand dollars were distributed in wages among the employees of the St. Bernard Coal Company in this county last month and yet there are men who will not admit that this company is a benefactor of mankind, but, thanks to their better judgment, their number is decreasing all the time and the people are beginning to appreciate the influence for good this company exerts in Hopkins county.

The following article so forcibly represents the St. Bernard Coal Company as to the good feeling that exists between employer and employee that we here reproduce it:

At a recent social function connected with an American manufacturing firm—a machine-tool company—one of the proprietors made some remarks that are deserving of consideration by employers generally. He declared that the goodwill of the employees is a tangible asset, incapable of being shown on the books of any concern, but a value to be measured in profit and loss as it is present or lacking. "I believe," he added, addressing the workmen, we have your goodwill and loyalty, and I assure you that you have ours. We do not believe in 'rules and regulations,' as usually understood, as you know by their absence in our shops. Were I to choose one word to write over every lathe, planer, milling machine and bench, it would be the word 'quality,' and I would have it apply in every sense. If I were to ask each of you what company stands at the head of the machine-tool industry, I guarantee that ninety-nine out of one hundred would name the same company. Their methods from their packing to their salary list, have for a long time indicated quality. Let us pursue this object, quality, as one we are determined to attain, and having attained it in the fullest sense, we will be enabled to reflect with satisfaction upon our efforts."—London Coal and Iron Trade Review.

caught an impressive lesson will be taught them.

Too much liquor of the Madisonville kind caused one of the boys to fall into the hands of the marshall Barnett last Monday, and he was placed in the cooler for a while to sober up.

It is evidently a fact that Cuba is getting quickly Americanized, if the following clipping be true, where it can be seen that they have so far advanced as to inaugurate a railroad strike:

Havana, April 9.—All railway communication from Havana eastward is suspended, because the strike of 2000 employees of the United Railroads affects the provinces of Matanzas and Santa Clara, as well as routes to Guanajay, province of Pinar del Rio, and to Batubano, on the eastern coast of Havana Province, where the steamships make their communication with Havana. No freight or passenger could be moved to or from. The inconvenience resulting is very great. It is hoped however, that the strike will be settled by the company according to the demands of the strikers, who want a re-establishment of the wage scale that existed before the war.

The citizens of Hot Springs, like those of other cities in the State, have no personal grievance against corporations desirous of investing their money in Arkansas to develop its resources. Members of the Legislature who consult the influential citizens of Hot Springs will find that they want more railroads, more factories, and do not want laws that will ruin their credit by preventing them from insuring their property in legitimate fire insurance companies.—Little Rock (Ark.) Gazette.

**DOWN IN THE MINES.**

It is rumored that some new stockholders will be added to the Hecla Coal Co.

A colored miner by the name of Green was slightly hurt at New South Diamond Mines last week.

The copper mines at Ducktown, Tenn., has recently been purchased by capitalists from New York.

The delay of some repairs ordered by the Hecla Coal Company caused them to lose some time last week.

If there is any one thing that will tend to bring the U. M. W. in disrepute it is the calling of Debs into their council.

Mr. T. K. Givens, of Providence, Ky., who has for years been leasing out coal mines, has now sold the same for \$7,000.

Mr. J. J. McGregor, who has lost about two months of labor on account of sickness, is some better, but not yet able to do good service.

The Middleborough, Ky., steel works, along with coal and coke properties, has recently been purchased by Eastern capitalists.

The Manufacturers' Record last week had the Monarch Mine located in Webster county, when it is in Hopkins, near the county seat.

The Monarch Coal Company was on the hunt of coal last week for their patrons, their machinery having broken down, stopping the mines for a few days.

A box car placed on the coal car track by mistake got away by some means and ran against the apron at No. 9 mine, one day last week, causing some damage and several hours loss of time.

Foreman Toombs and men gave the coke oven scales an overhauling. So busy have they been the past few months that even time to make repairs on scales could not be found.

Engineer James Kilroy, of Hecla mines was made happy one day last week when Col. Toombs presented him with a pair of crutches. He hopes to be walking around soon.

It is said that the Providence Coal Co. has offered quite a sum of money as an inducement to the Illinois Central railroad to build their road to Providence.

Although spring is here, the St. Bernard Coal Company still continue to be rushed with orders. In fact they were unable to supply the demand for coal last week, and other companies in Hopkins county are in the same fix.

Quite a number of the Earlinton miners were last week unable for work, on account of sickness and pain accompanying vaccination. Most of them see the necessity of guarding against so dreaded a disease as the small pox, and therefore take their medicine with but little complaint.

When the colored miners of Alabama went to Illinois to seek work in coal mines of that State after a strike had been inaugurated by the U. M. W., they were called "negro scabs," but as soon as they arrived at the conclusion to join that organization and surrender their independence they are taken into full membership and called "brother."

**Wonderful Discovery.**  
LANSFORD, Ala., April 15, 1898.  
New Spencer Medicine Co.  
Dear Sirs:—I have been troubled with liver and stomach complaint. I had no appetite and my general health was very bad. I took medicine from four different doctors and they failed to do me any good. I got no relief until I began to use your valuable Nubian Tea. I used about two dollars worth of it, and it did me more good than all the medicine I ever took. I have gained thirty-five pounds in weight and my health is very good. I can sleep soundly and my appetite is excellent. I can recommend Planter's Nubian Tea to the world as being a God-send to any community. Any one who doubts this statement can write to me.

Sold by St. Bernard Drug Store.

**Died.**  
Of typhoid fever, at Hecla, Ky., on April 3, 1899, Waldo Shaffer, in the sixth year of his age, after an illness of thirty-three days. He was seriously ill from the first giving no murmur or complaint but always the same reply to inquiries, "I'm all right." "How are you today, little man?" "I'm all right," and each day the voice grew weaker and the musical tones grew fainter, and the beautiful eyes grew dimmer. Still when asked the question little Waldo Shaffer answered just the same, "all right" until the angel of God swept down and took him to the Master who said, "Suffer little children to come unto me and forbid them not for of such is the kingdom of heaven."

And so little Waldo, the beautiful boy, faded from earth and, waited on angel's wings to Heaven, is now radiantly beautiful with the glory of God before the eternal throne of Heaven. And today the same tones come from the far beyond striking a sad sweet chord in the mother's heart and waking memories sweeter and dearer than all the world can give, "all right, all right." From God's hand all is right. Praise God, mother, bow submissively, father, the blow is in mercy, your treasure is in Heaven, safe in the arms of Jesus. And ever and anon will come from the far beyond through the sea of sweet memories a musical tone: "All is right!"

**Beware of Ointments for Catarrh that Contain Mercury,**  
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It takes internally and is made in Toledo, O., by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c. per bottle. Hall's Family Pills are the best.

**Married.**  
S. O. Gamblin and Miss Estella Bradshaw, of the county, were married yesterday at the residence of the bride's parents.

**Lingering La Grippe Cough Cured.**  
Mr. G. VACHA, 257 Ogdon St., Chicago. My wife had a severe case of La Grippe three years ago and left her with a very bad cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely. Now we are never without a bottle of this wonderful Cough Medicine in the House. 25 and 50c. Campbell & Co.

**Kerr-Canale.**  
Miss Eva Canale and Mr. W. C. Kerr, of the Ashbyburg neighborhood, were married at Madisonville Sunday, at the residence of Mr. J. W. Ashby, Rev. S. H. Lovelace officiating.

**Stockholders' Meeting.**  
The annual meeting of the St. Bernard Coal Company will be held in the general offices of the company at Earlington, Ky., Wednesday, April 19, 1899.

**GEORGE C. ATKINSON,**

## K. OF P. BANQUET.

Victoria Lodge, No. 84, Will Fittingly Commemorate Its Anniversary.

MAY FOURTH IS THE DAY FIXED.

Decision was made at the meeting of Victoria Lodge, No. 84, Knights of Pythias Monday night, to commemorate the eighth anniversary, which falls on May 4th, with a choice affair in the way of a stag banquet at Mrs. J. M. Victory's New Hotel Earlington. Will Vanison has the credit of being sole committee on arrangements and his plan was accepted at the Monday evening meeting.

On the date of the anniversary celebration there will be work in the third degree, and it is expected there will be five candidates to finish. At the banquet each member is expected to be accompanied by a gentleman friend. The occasion is being looked forward to with much pleasant anticipation.

Messrs. Langley, Wells, Hopewell, Cunningham, Long and Willis, of Morton Lodge, No. 99, Madisonville, and Mr. Albright, visiting, were present at the meeting Monday night. The Madisonville team did the work and the Earlington boys are complimenting the manner in which the degrees were conferred. The candidate was John Stearnsman.

**Best way to Invest 25 Cents.**  
ANTIOCH, Miss., July 1st, 1898.  
New Spencer Medicine Co.

I want to tell you what I think of your Nubian Tea. I have used it myself and in my family, and it is all that you claim for it. It is the best Liver Medicine I ever tried. It is just the thing to take if you feel bad and are bilious.

Sold by St. Bernard Drug Store.

**Bishop Dudley.**  
Last week THE BEE announced a change in date of Bishop Dudley's appointments here and at Madisonville. The correction is again noted in order that there may be no confusion of dates. The Bishop will hold services at Assembly Hall Thursday night, April 20, and will be in Madisonville the night of the 19th. Rev. M. M. Benton will accompany him. All are invited to attend these services.

**April Showers.**  
Wash away the filth and waste that have accumulated during winter. In like manner Hood's Sarsaparilla expels from the blood impurities that have been deposited during the season when there has been but little perspiration and perhaps constant confinement in impure and vitiated air. It is a boon to every mother, housekeeper, teachers and others who spend their time indoors.

It gives the blood richness and vitality, fitting it to nourish and strengthen the nerves, muscles and all the great organs of the body. It cures all spring humors and banishes that tired feeling. It is the best medicine money can buy for all diseases caused by impure or impoverished blood. You should begin taking it to-day.

**New Preacher.**  
Rev. W. T. Childers, of this county, a young preacher in the General Baptist Church, has been regularly engaged by that congregation at this place. He will fill his first appointments here the third Saturday and Sunday in April, 15th and 16th. A cordial invitation is extended to all.

**Discovered by a Woman.**  
Another great discovery has been made, and that too, by a lady in this country. "Diseases fastened its clutches upon her and for seven years she withstood its assaults, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She finally discovered a way to recovery by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night, and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamblett & Co., of Shelby, N. C. Trial bottles free at St. Bernard Drug Store. Regular size 50c and \$1.00. Every bottle guaranteed.

**Bought the Grainger Hotel.**  
The Grainger Hotel property is being deeded to Mrs. Wm. McCarty, who held an interest as one of the heirs to the property. The purchase price is made on a total valuation of eighteen hundred dollars.

**Remarkable Cure of Rheumatism.**  
KENNA, Jackson Co., W. Va.  
About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. B. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to directions, and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since. B. PARSONS. For sale by St. Bernard Drug Store, Earlington; Ben T. Robinson, Mortons Gap; George King, St. Charles.

**Col. Charles Seymour and Mr. Quigley, now engaged in railroad construction in Alabama, and Mr. J. F. Gordon, of Madisonville, visited Earlington Monday.**

Col. Seymour had the misfortune to break his right arm recently and can yet use it very little. Mr. Quigley will visit and inspect the oil region of north Christian county in which two Oil Companies with headquarters at Earlington are interested.

**Henry Koehler & Company, Lumber Dealers of Louisville, Ky., invite correspondence with Mill men who have lumber for sale. They buy POPLAR and HARDWOODS in mixed cars, DRY or GREEN. Write them.**

## Magazine Club.

The Magazine Club was pleasantly entertained at the home of Mrs. W. F. Burr last Thursday afternoon, and regardless of the weather, attendance was good.

Mrs. Foard read "The Personalities of Henry Drummond," "McClure's," and Miss Moore, "Thirteen Days in Unexplored Montenegro," Harper's. A poem read by Miss Crenshaw and two by Miss Burr were greatly enjoyed by Mrs. Chatten who had been absent for several times was again present. Dainty refreshments were served and the Club adjourned to meet with Mrs. C. H. McGary, Thursday, April 20, 1899.

**To Err is Human.**  
People like to talk about attractive things in advertising. In a company recently the proverb above quoted, and which appeared at the head of one of a well constructed series of advertisements of Hood's Sarsaparilla, was so much discussed that we doubt if any one there will ever forget the source whence it came. Messrs. Hood & Co. are using these proverbial advertisements on a very broad scale, and they are attracting discussion and favorable comment everywhere.

**Eyesight Gone.**  
Thanie Priest met a painful and serious accident recently that has resulted in the loss, temporarily at least, of the sight of one of his eyes. In doing some light carpenter work about home a splinter some six inches long flew and struck him in the eye, the sharp point penetrating to the anterior chamber and destroying the lens of the eye by letting out the water that fills the lens. A soft cataract formed at once and Thanie suffers loss of sight and considerable pain in the member. The skill of physicians may be able to restore sight by a certain operation and the use of a special glass to do the work of the destroyed lens.

**Golden Cross.**  
Mrs. S. E. Stevens left yesterday morning to attend the meeting of the Grand Lodge United Order of the Golden Cross which is being held at Louisville. Mrs. Stevens goes as the representative of Earlington Commandery, No. 525. The Grand Lodge meets once in two years. The last meeting was in Madisonville, at which time the Earlington Commandery took very prominent part. Mrs. J. E. Day was also entitled to go as a delegate but did not go.

**Good for the Children.**  
Mrs. Ella Hinson, of Hinton, Ala., writes on August 18th, 1898: "I advise all mothers to give their children Planter's Nubian Tea when they are puny or fretful. I keep this medicine in the house and when the children are sick I give them a dose and that is the last of it."

Sold by St. Bernard Drug Store.

**Died.**  
Mrs. H. E. Eison, of Sulphur Springs, died Tuesday morning at 8 o'clock, of lung trouble, aged about fifty years, after a lingering illness. The remains were interred at Dawson Springs Wednesday afternoon. Mr. Eison is a farmer of Sulphur Springs, and the former home of the family was at Dawson Springs, where the burial took place according to the wish of the departed.

**Glorious News.**  
Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Balm have cured Mrs. Brewer of sciatica, which had caused her great suffering for years. Terrible sores would break out on her face and head and the best doctors could give no help, but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Balm is the best blood purifier known. It's the surest remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion builds up the strength. O. I. 50 cents. Sold by St. Bernard Drug Store. Guaranteed.

**Odd Fellows.**  
About a dozen of Barnsley Odd Fellows, headed by their crack worker, Jno. Dunning, went to Madisonville Monday evening to help in the conference of degrees in Madisonville lodge. Members of the Sebree lodge were also present and a very pleasant and profitable evening spent.

After the work in the lodge room a banquet was enjoyed at the New Belmont Hotel.

**A Timely Hint.**  
You should be wise and see that your blood is rich and pure and your whole system put in a perfectly healthy condition by the use of Dr. Carlini's German Liver Powder. Then you will be free from malaria, typhoid fever, colds and the grip. Dr. Carlini's German Liver Powder is the best medicine money can buy. For sale by St. Bernard Drug Store.

For your Cold try Dr. Otto's Spruce Gum Balsam. Price 25c and 50c a bottle.

**Col. Charles Seymour and Mr. Quigley, now engaged in railroad construction in Alabama, and Mr. J. F. Gordon, of Madisonville, visited Earlington Monday.**

Col. Seymour had the misfortune to break his right arm recently and can yet use it very little. Mr. Quigley will visit and inspect the oil region of north Christian county in which two Oil Companies with headquarters at Earlington are interested.

**Henry Koehler & Company, Lumber Dealers of Louisville, Ky., invite correspondence with Mill men who have lumber for sale. They buy POPLAR and HARDWOODS in mixed cars, DRY or GREEN. Write them.**

## MANY VACCINATED.

More Than Five Hundred Arms Were Scratched in Earlington.

APPLICANTS STILL NUMEROUS.

The Earlington physicians have been busy at vaccinating the people of Earlington periodically all the time they could devote to the work since the issue of the appeal by the Earlington Board of Health. Most of this work has been done at the doctors' offices, and there are yet a large number of candidates for vaccination awaiting an opportunity. Up to date there have been more than five hundred people vaccinated. The list stands about this way up to noon yesterday: Dr. Chatten, 230; Dr. Mothershead, 200; Dr. Davis, 80.

A very large per cent. of the vaccinations have taken in great shape and many persons have been forced to rest for two or three days as a result. Some of the mine work has been a little embarrassed by the necessary lay-offs but no serious interference has resulted.

**Fred Feiler Bought.**  
Fred Feiler has bought the T. G. Terry property on Moss Avenue for a consideration of twelve hundred dollars and will make Earlington his home again. Mr. Feiler has been on the lookout for a place and closed the above trade a few days since.

**He Fooled the Surgeons.**  
All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest cure on Earth, and the best Salve in the World. 25 cents a box. Sold by St. Bernard Drug Store.

**Bishop & Co.**  
The old, reliable house of Bishop & Co., are again in the columns of THE BEE, beginning with this issue another advertising contract. Their space will be regularly filled with offerings of good things, and a standing invitation to the people of Earlington, and of Hopkins, Christian and Webster counties to come and buy. Bishop & Co.'s motto is still "Your money back if you want it."

**Attention Ex-Confederates.**  
Our annual meeting will be held at City Hall, Madisonville, Monday, May 8th, at 10 o'clock, p. m. Important business; every member is earnestly invited to attend.

Another coal mine will soon be opened on Lookout Mountain, the capacity of which will be 700 tons daily. The managers also contemplate the construction of coke ovens.

**Pains in the Back Cured.**  
A. B. FARRINGTON, Constantia, N. Y., writes: I was troubled several years with kidney disease and suffered severe pains in the back. I used Foley's Kidney Cure and one bottle cured me. I recommended it to my friends and it has given perfect satisfaction. Campbell & Co.

The Philadelphia Ledger says the outlook for the anthracite coal trade for April is more cheerful than has been known for several seasons past while the unsold stocks of anthracite on hand are lower than for years.

Do not sneeze and cough you head off when a few doses of Dr. Sawyer's Wild Cherry and Tar will cure your cold and cough and prevent any further lung or bronchial complications. St. Bernard Drugstore.

## EASYGOING PEOPLE

Those who disregard early indications of disease. The progress of catarrh is frequently gradual. Chronic catarrh secures possession without the knowledge of its victim.

It has become so common to say, "Every body has a little catarrh" that many easy going people pay little attention to it. Yet no class of disease is so difficult to shake off.

Many people well advanced in years find themselves in the toils of catarrh. Mr. and Mrs. Collum, of Giddings, Tex., found help in Pe-ru-na. Mr. Collum's letter follows:

DEAR SIR:—"I think your Pe-ru-na is the best medicine I ever tried for catarrh. I have tried all the catarrh medicines that I could hear of and none of them did any good until I tried yours. I and my wife have both used the Pe-ru-na and Man-a-lin, and we are about well. I am 70 years old and my wife is 68. When we commenced to take your medicines we were not able to see after our work, but now we can tend to her work and I see after my farm. You can use this publicity if you want to."—A. P. Collum, Giddings, Tex.

**NEIGHS AND BRAYS OF THE "HOSS EDITOR."**  
"Hark from the Tumbler."

If the occasion requires there is not a man in the State who can act greener or do so on shorter notice than Ed Austin. A few evenings since he was coming down town to mail a letter and noticing a crowd of country people standing near an electric light pole it occurred to him to have a little fun. Walking up to the pole he tried to reach the box within which the rope is coiled that raises and lowers the light and which is located about ten feet above the ground. The crowd smiled visibly at his fruitless efforts. Then backing like a sheep he took a running start and leaped high in the air, but failed to reach the box. This tickled the crowd, but their merriment knew no bounds when Ed took the letter between his teeth and shinned up the pole and spent a minute or two vainly trying to poke the letter into the box. He slid down and remarked in disappointed tones: "I know prosperity has struck this town, and every thing has gone up, for the letter boxes has climbed up nearly as high as a house. I guess Uncle Sam will have to drop 'em down so folks can reach them," and putting his letter in his pocket he started for the postoffice, leaving the crowd convulsed at his greenness. Reaching the office he soon had a crowd around him to whom he related the circumstance with the greatest enjoyment.

You will see much greenness in this life as you make the journey through. But don't take too quickly at a man. He may be making sport of you.

Monday evening J. L. Hazelwood, an L. N. brakeman, surrounded an overdose of tanglefoot which besides multiplying his pedals also loosened up his organs of speech and despite the efforts of friends he persisted in using words not lawful for men to utter. About this time Marshal Barnett revolved around and cast the iron meshes of the law around the erring knight of the link and pin, and sidetracked him off to the municipal refrigerator. Just as he entered the haven of rest a friend came forward and put up a sum of money as a guarantee for his appearance and offered to take charge of him till he recovered from his attack of bugjice. Barnett obligingly released him and they went away. Later the friend went to the officer and called for the man and told Barnett to lock up Hazelwood, which he did, and he occupied the "anxious seat" until midnight when Watchman Morgan released him. He told the mark before Judge Cowell next morning at eight o'clock and contributed an anguish plaster of the V denomination and usual incidentals to the city exchequer.

Again is strongly brought to mind the truth of that old line: Though the godly mills do slowly grind, They grind exceeding fine.

Uncle Oscar Stevens was in McCarty's butcher shop last week inspecting some fish, and finally selected one which he said suited him. John I. Morgan was sitting by much interested in the selection and when Uncle Oscar made his choice John promptly objected and told him to buy a big one. "Why," said Uncle Oscar, "it don't take a very large fish to make a meal for me and my wife."

"But you ought to get one that would make several meals," said John. "Why so?" asked Uncle Oscar. "Because fish is good brain food," and the laughter which followed brought Marshal Barnett around to investigate.

Now if the scientists can show that fish is brain food, as they say, There are some people that we know Should eat more whales a day.

One evening last week the citizens of the southwestern part of the city were startled by loud yells of terror succeeded by shrill screams of pain all of which seemed to emanate from the residence of Mr. Isaiah Fox and gave rise to the belief that Filipinos had landed somewhere upon the eastern shore of Loch Mary and had captured old Brother Fox and were putting him to the torture. A large delegation with pendant eyes rushed up to his house and crashing in the door found him rolling about the floor yelling in fear and agony. After he quieted down he replied to their anxious inquiries and told the wondering crowd that he had lain down upon the bed to take a nap during which he dreamed that he was crossing a pasture and was chased by Corey's big bull. Fear lent wings to his feet and he fled like lightning across the vast pasture hotly pursued by the belching Taurus. By a superhuman effort he cleared the high pasture fence at a bound and landed flat in the middle of the floor where he lay screaming until his astonished friends could make him realize that the dreaded Taurus was peacefully chewing his cud in a lot a mile away.

This lesson he will heed, perhaps, And either sleep upon the floor, Or in his future evening nap He will bull-doze no more.

**Christian Endeavor Service.**  
Contributed.  
Last Sunday representatives of Christian Endeavor work in Earlington were greatly helped and strengthened by attendance upon the special service held in the Cumberland Presbyterian church in Madisonville.

The church was filled by those who followed very attentively the words of help and comfort, and listened with deep interest to the vocal and instrumental music. Mr. Ruby Laffoon presided, and in an admirable address stated what it was that all hoped to accomplish, by the meetings between now and convention week. Prof. Glenn in supplication asked for that aid and strength all need so much, and implored blessings upon the meeting to be held.

Brother Boone read a lesson most applicable to the needs of the hour and made a forcible appeal for united, consecrated effort in this movement, all felt necessary to Madisonville and surrounding towns. Bro. Lovelace talked beautifully along the line of spiritual strength to be gained by the coming meetings. Bro. Hill, ready, apt and full of interest in the cause, made earnest appeals for the upholding of the Master's cause. Bro. Teel, by his presence showed his interest and faith in the work. Laymen like Judge Hall, Mr. I. Bailey and others had good strong words for the opportunity coming for so many to do a little more than ever before towards striking a blow at evil, and aiding as never before in lifting the standard just a little higher in Madisonville.

In addition to the helpful words, the music was a delightful feature of the service, instrumental and vocal. A solo by Mrs. Geo. W. Rash, "Resurrection," was very beautifully given, while Mrs. Brenker, in a solo touchingly rendered, added to the service. The quartette did most excellent work and the chorus, quick and ready, added much to the earnestness of the service.

Money is needed; will not each give as he or she is able? Work is needed; how many will offer service? Singers are needed; will help. Earlington people will be benefited by the great Convention; will each and every one do what they can? "Be strong all ye people of the land, saith the Lord, and work for I am with you, saith the Lord of hosts."

## AN EXCELLENT COMBINATION.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing Figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

# HAVE YOU WEAK LUNGS?

Every Sufferer from Lung Weakness, Consumption, Asthma, Catarrh or Bronchitis Can Be Cured.

**Complete FREE Course of Treatment**  
Consisting of Four Preparations  
— The Slocum System —

Nearly everybody you meet will regard it as a kind of insult to be asked if they have weak lungs. All seem to have a solid faith in the soundness of their own breathing machine. In cases of trouble they will admit there is a "heavy cold," "a touch of bronchitis," or even "a spell of asthma," but as to weak or unsound lungs, never, NEVER. Even the poor consumptive, who scarcely speaks without coughing, whose cheeks are wasted, hollow and bear the hectic flush of doom, will assure you with glistering eyes that his cold is on the mend and he will be all right when the weather changes.

It is simply terrible to think how far we may be guilty by our indifference to the lung troubles of those near and dear to us. It is also a sad thought that we may hug a delusion as to our own health that we only get rid of when life itself must pay the forfeit.

Nobody can afford to think lightly of lung troubles. Nobody can afford to be mistaken about their possible dangers. Nobody can afford to neglect them, or "let them wear out," or "get better in the spring," or any other foolery that leads only to wreck and ruin. Lung troubles don't move backward. Weak lungs don't grow strong by themselves—you must look after them and strengthen them, and rid them of the very earliest germs of disease, or you are simply committing a form of suicide. Either you must cure your

## THE SUNDAY SCHOOL.

LESSON III, SECOND QUARTER, INTERNATIONAL SERIES, APRIL 16.

Text of the Lesson, John xiii, 1-17. Memory Verses, 14-17—Golden Text, John xiii, 15—Commentary Prepared by the Rev. D. M. Stearns.

[Copyright, 1890, by D. M. Stearns.]

1. "Having loved His own which were in the world, He loved them unto the end." How good it is that He never ceases to love us. He never finds anything new about us, but before ever He told us of His love He knew us thoroughly, and He loves us with an everlasting love (Jer. xxxi, 3). He came from the Father into the world, and He has some last words and lessons for His disciples, many of which are full of assurances of His love, such as chapter xv, 9.

2. At one time the devil used the serpent, but since Eve listened to him the devil has always been able to find men and women enough for his purposes. He puts before us evil thoughts, and if we receive an evil thought, then he will give us a way to carry into an evil deed, and he will come into us himself and consume it. In this verse he puts the thought into Judas' heart, and in verse 27 he comes in himself.

3. Jesus was conscious that all power and all things were His; that He came from God and was going back to God; that He did not try to make Himself equal with God, for He was equal with God, one with the Father. If we have received Him, we are children of God by faith in Him, heirs of God and joint heirs with Christ (Rom. viii, 16, 17), and as we believe this we will be enabled to do or bear cheerfully whatever He sends us.

4. Laying aside His garments is suggestive of the glory which He laid aside when He came to earth for us and to take Himself with a towel makes us think of Him as our great high priest, ever ministering to and serving us. He is still girded about the breast with a golden girdle (Rev. i, 13) and is at God's right hand for us as well as in the midst of the churches.

5. Washing and wiping the disciples' feet—how dumb with astonishment they must have been, and what an opportunity for blessed service some one lost! How slow we are to see the opportunities until they have passed. He never passed. 6. "Lord, dost Thou wash my feet?" With amazement Simon has watched Him washing from head to foot, but now that his own turn has come he cannot stand it and thus cries out, adding, "Thou shalt never wash my feet" (verse 8). To see our Lord standing in the first topical reference as the putting off of the old man, the old life, as one puts off an old garment, the new life, as one puts on a new garment. The garments of the new life are the holy garments. The change of life is therefore described as if it were the taking off of old garments which are ragged, shabby and dirty, and the putting on of new garments which are clean and tidy. The rags of the old man are given up for the robes of the new. Filthy garments are exchanged for holy garments.

Before the holy garments can be put on two important changes must take place. 1. The inward man must be renewed. We must be renewed in the spirit of our mind. This is the work of the Holy Spirit, and our part in it is to earnestly desire and fervently pray for the Holy Spirit to renew our minds. 2. The filthy garments of the old life must be put off. Before the new can be put on the old must be taken off. "Put off," says Paul, "the old man, which is corrupt according to the deceitful lusts." "Put off," says the new man, which, after God, is created in righteousness and holiness."

These holy garments are the characteristics of life which partake of righteousness and holiness. They are the actions of life which are right toward our fellow men and right toward God. They are patterned after the moral character of God Himself. They are the outward proof of an inward change of life. The rags of the old man are further particularized as falsehood, anger, dishonesty, idleness, corrupt speech, bitterness, evil speaking and malice. The filthy garments are the robes of truthfulness, self control, kindness, industry, purity in speech, good will, kindness and forgiveness.

The desirability of the holy garments should be evident to all. Rags are disgusting to most men. To literally wear rags for clothing is very unpleasant. How much more disgusting and unpleasant it should be to wear moral rags. Better to have on the robes of righteousness and be clothed in plainness and carelessness than to wear filthy moral rags and be dressed in purple and fine linen. Rags or robes, which will wear out, should be put off and new ones put on. It is a question, if we are wise both for time and eternity.

Bible Readings.—Job xxix, 14; Ps. cxxxii, 9-18; Eccl. ix, 8; Isa. lii, 1; Jer. xiv, 1; Jer. xiv, 8-9; Math. v, 1-10; Rom. vii, 1-6; Gal. v, 19-26; Eph. v, 1-9; Phil. iii, 1-9; Jas. v, 1-12.

Christian Education. "Knowledge is power" in every sense of the term, and the man of the race that has knowledge stands for power, and every man and every race knows it. And this association, working through education, is working at the very center and heart of the whole life. It is Christian education. Why? Because all pioneer education must be Christian education. Our great foundations on which we have built, lying back in the eighteenth century, were Christian foundations. We are able now to build in diversified ways. There is a separation to a certain extent going on between church and school like that which went on between church and state. Our great universities stand for learning primarily, as one state stands for freedom and justice, and lack of it all in those early days stands the foundation of Christian education. It is Christian education that is the pioneer, and no race can get under headway by any other motive whatever. You can gain knowledge enough. Into the negro race to give it headway unless you touch its conscience and inform its heart. You can't inspire any race to go on its large, helpful mission until you have filled that race, not only with an order of knowledge, but with the passion of a great consecration.—President Tucker of Dartmouth College.

Look at the incredible ease of prayer. Every time, place, posture, is fitting. Talent is not needed. Eloquence is not of place. Our want is our eloquence, our misery is our recommendation. Thought is quick as lightning, and quick as lightning can it multiply effectual prayer. Actions can pray, sufferings can pray. The whole function is expressed in a word. It is simply this: the child at his father's knee, his words standing over each other from very earnestness, and his wistful face pleading better than his hardly intelligible prayer.—F. W. Faber.

Blessed is he that cometh to the help of the Lord, to the help of the Lord against the mighty. No wounds, no blows, that he can receive while he is fighting on that side can harm him. To fight there is itself to conquer, even though the victory comes through pain and death, as it came to Him under whom we fight, the Captain of Our Salvation, Jesus Christ.—Bishop Brooks.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 9.—Comment by Rev. S. H. Doyle. Topic.—The holy garments.—Eph. iv, 20-24; Rom. vi, 4.

The change that takes place in the life of one who becomes a Christian is described by Paul in the first topical reference as the putting off of the old man, the old life, as one puts off an old garment, the new life, as one puts on a new garment. The garments of the new life are the holy garments. The change of life is therefore described as if it were the taking off of old garments which are ragged, shabby and dirty, and the putting on of new garments which are clean and tidy. The rags of the old man are given up for the robes of the new. Filthy garments are exchanged for holy garments.

Before the holy garments can be put on two important changes must take place. 1. The inward man must be renewed. We must be renewed in the spirit of our mind. This is the work of the Holy Spirit, and our part in it is to earnestly desire and fervently pray for the Holy Spirit to renew our minds. 2. The filthy garments of the old life must be put off. Before the new can be put on the old must be taken off. "Put off," says Paul, "the old man, which is corrupt according to the deceitful lusts." "Put off," says the new man, which, after God, is created in righteousness and holiness."

These holy garments are the characteristics of life which partake of righteousness and holiness. They are the actions of life which are right toward our fellow men and right toward God. They are patterned after the moral character of God Himself. They are the outward proof of an inward change of life. The rags of the old man are further particularized as falsehood, anger, dishonesty, idleness, corrupt speech, bitterness, evil speaking and malice. The filthy garments are the robes of truthfulness, self control, kindness, industry, purity in speech, good will, kindness and forgiveness.

The desirability of the holy garments should be evident to all. Rags are disgusting to most men. To literally wear rags for clothing is very unpleasant. How much more disgusting and unpleasant it should be to wear moral rags. Better to have on the robes of righteousness and be clothed in plainness and carelessness than to wear filthy moral rags and be dressed in purple and fine linen. Rags or robes, which will wear out, should be put off and new ones put on. It is a question, if we are wise both for time and eternity.

Bible Readings.—Job xxix, 14; Ps. cxxxii, 9-18; Eccl. ix, 8; Isa. lii, 1; Jer. xiv, 1; Jer. xiv, 8-9; Math. v, 1-10; Rom. vii, 1-6; Gal. v, 19-26; Eph. v, 1-9; Phil. iii, 1-9; Jas. v, 1-12.

Christian Education. "Knowledge is power" in every sense of the term, and the man of the race that has knowledge stands for power, and every man and every race knows it. And this association, working through education, is working at the very center and heart of the whole life. It is Christian education. Why? Because all pioneer education must be Christian education. Our great foundations on which we have built, lying back in the eighteenth century, were Christian foundations. We are able now to build in diversified ways. There is a separation to a certain extent going on between church and school like that which went on between church and state. Our great universities stand for learning primarily, as one state stands for freedom and justice, and lack of it all in those early days stands the foundation of Christian education. It is Christian education that is the pioneer, and no race can get under headway by any other motive whatever. You can gain knowledge enough. Into the negro race to give it headway unless you touch its conscience and inform its heart. You can't inspire any race to go on its large, helpful mission until you have filled that race, not only with an order of knowledge, but with the passion of a great consecration.—President Tucker of Dartmouth College.
